

Risking Connection® Trauma-Informed Quick Assessment

Where Is Your Organization on the Path to Trauma-Informed Care?

STAGE 0

Pre-Trauma Aware

- ☐ Staff rarely discuss trauma and its impact.
- ☐ Routine intakes ask little about histories of trauma.

STAGE 1

Trauma-Aware

- ☐ Staff understand what trauma is and how it affects clients and staff.
- ☐ Leaders understand that trauma knowledge can help them meet their mission.

STAGE 2

Trauma-Sensitive

- ☐ Staff apply their new trauma knowledge to their specific work.
- ☐ The organization utilizes practices to address secondary trauma.

STAGE 3

Trauma-Responsive

- ☐ All staff get trauma training.
- ☐ The organization prioritizes a trauma approach.

STAGE 4

Trauma-Informed

- ☐ All staff are skilled in using trauma-informed practices.
- ☐ All aspects of the organization reflect a trauma-informed approach.

*Adapted from the Missouri Model: A Developmental Framework for Trauma-Informed (2014)

The Risking Connection® Change Model (RCCM)

Your Guide to Sustainable Trauma-Informed Care

Whether your organization is just starting to consider a trauma-informed approach or is already on the journey, the Traumatic Stress Institute (TSI) can help you get to the next level — and beyond.

The RCCM Helps You Progress Toward Your Goals:

- Supports deep and lasting organizational culture change
- Meets teams where they are and guides them forward
- Creates shared language and understanding of trauma across all staff levels
- Centers staff well-being to reduce secondary trauma and increase retention
- Equips staff with the skills to foster client healing and connection
- Uses state-of-the-art tools to evaluate your success
